CITY COUNCIL LAST NIGHT

Auditor, City Treasurer and Light Committee Submit Reports.

WORK OF THE YEAR

Board of Aldermen Passes Resolution for Summer Recess—Tabled by Common Council.

The City Council was in session an hour and a half last night. The volume of business transacted was about as large as that disposed of att he meeting two weeks ago.

The conference committee did not submit a report on the ordinance appropriating $5,000 for the new hospital building, as had been expected.

The Board of Aldermen passed a resolution providing that when Council adjourned no further meetings be held during the summer exceptt at the call of the presidents of the two boards. The Common Council refused to concur and passed a resolution providing that when Council shall have disposed of the business before the bodies on the second Tuesday in July a recess be taken until September 1st. The Aldermen refused to concur, adhered to its former action and laid the resolution of the lower board upon the table, and when the board adjourned it was with the understanding that it would not meet without having been called by the president after five members shall have requested a meeting.

The reports of the Auditor, City Treasurer, Clerk of Gas and Superintendnt of Gas were submitted. These exhibits will be printed in book form and not in the Gazette as heretofore.

The reports of City Treasurer Thomas W. Robinson and City Auditor E. F. Price showed loeal receipts, $228,301.73, and expenditure of $227,616.40, leaving a balance in the treasury June 1, of $685.33.

The report of John B. Waller, clerk of gas, showed receipts from the sale of gas, gas stoves, &c., $54,709.59; expenditures, $42,316.21, leaving a balance of $13,393.38 covered into the general fund.

F. W. Latham, superintendent of gas, reviewed the work of the year, and told of improvements at the plant.

Board of Aldermen.

There was virtually no discussion in the Board of Aldermen. Some queries were at times propounded, but the votes taken were unanimous.

Mr. Hill introduced a resolution providing that when Council disposed of the business before it a summer recess be taken, and that no further meetings be held, save at the call of the presidents of the two boards. The Common Council returned the resolution, non-concurred in, that board having passed a resolution providing that when Council adjourns on the second Tuesday in July it recess until September 1st.

Mr. Hill was opposed to the Aldermen receding and insisted that they adhere to their action. This was done by a unanimous vote and the resolution of the lower board was laid upon the table.

The committees on finance and public property submitted a report upon tthe propositon to rent or sell the Fish Wharf property. They recommended that the property be leased to W. A. Smoot & Co., Inc., for a term of years, at an annual rental of $300, provided the city be allowed sufficient space for its business. The report was adopted.

Ordinace sproviding for a modern roadway and sidewalks on Lee street from King to Queen, were introduced and referred. The other matters which came before the Aldermen were of a miscellaneous nature and will be found in the official proceedings.

COMMON COUNCIL.

Only 11 members attended the meeting of the Common Council last night, those absent being Messrs. Spinks, Graham, Sullivan, Marshall and Chauncey.

The reading of the minutes were dispensed with.

Mr. Harrison, from the committee on light, read the annual reports of the Superintendent of Gas and the Clerk of Gas. These showed an increased profit over any preceding year despite the fact that an unusually large sum had been spent for the extension of mains and similar work. The total receipts were $54,709.59, and the total expenditures were $42,316.21 showing a balance of more than $12,000, 11,000 of which was turned over to the general fund.

The committee at the last meeting of Council to confer with the Aldermen in regard to the appropriation of $5,000 for the hospital building fund reported that they had been unable to come to an agreement. This report was received and on motion of Mr. Brockett Council receded from its former action and concurred in the action of the Board of Aldermen in appropriating this money.

While this vote was being taken Council was interrupted several times by automobiles standing in front of or being run by the building with their mufflers cut out, and it was finally necessary to get a police officer to stop the noise.

The Parents' and Teachers' Association asked for $100 for the play Grounds to be established at the Washington School. This was referred to the finance committee, but came back later passed by the Board of Aldermen, and was laid over.

An ordinance reporting favorably by the committee on streets providing for a spur track from the Southern Railroad into the property of De Wilton Aitcheson on the west side of Union streets between Duke and Prince streets, was passed.

Seven hundred dollars was appropriated for new pumps on the Reliance Engine on the statement of Mr. Bryan that this was very urgent.

The annual reports of the Auditor and the City Treasurer were received.

The committee on finance and public property recommended that the Mayor be authorized to lease the fish wharf to W. A. Smoot, & Co., Inc. for a period of 10 years at an annual rental of $300, and this was done.

Seven hundred dollars was appropriated to erect a tool shed on the lot now owned by the city on the corner of Pitt and Princess streets.

A resolution introduced by Mr. Smith providing that when Council adjourned it be to meet on September 1st, caused a lengthy discussion. It was finally agreed that Council hold one more regular meeting, and then adjourn until September the 1st, subject, however, to the call of the President. This came back from the Aldermen non-concurred in, the Aldermen having agreed to adjourn for the summer without further meetings, and on motion of Mr. Williams the entire matter was laid on the table.

Mr. Williams offered an ordinance prohibiting open-air entertainments conducted for the sale of patent medicine and similar articles within the parts of the city occupied by residents. This was referred to the committee on general laws.

A number of permits setting aside provisions of the building law were granted, this having been first passed by the Aldermen.

After a lengthy wait for the Aldermen to conclude their business Council adjourned.

NAVAL REVIEW IN HAMPTON ROADS

Fleets of Civilized World Will Assemble in Virginia Waters.

MR. SWANSON'S PLAN

President Wilson Will Review Vessels —What Such a Pageant Will Mean to the Old Dominion.

Washington, D. C., June 24.—President Wilson's announced plan to review the fleets of the civilized world at Hampton Roads and then to lead the fleets through the Panama Canal at the official opening of that waterway, is the fruition of the plan outlined by Senator Swanson of Virginia as far back as 1910.

As a matter of fact, on January 13, 1911, Senator Swanson introduced in the Senate a joint resolution containing this paragraph:

"As the completion of this great waterway connecting the two great oceans will be an epoch in the history of the world and of special interest to the commerce of all nations, the President, in his invitation to the foreign nations, shall invite their representatives and their fleets to rendezvous at Hampton Roads, Virginia, and from thence the representatives shall proceed to the city of Washington, there to be formally welcomed by the President; and at the conclusion of the ceremonies at Washington, the President shall proceed to Hampton Roads and there review the assembled fleets of the world as they start on their voyage to the exposition city."

It is of peculiar interest to Virginia that the Swanson plan has been endorsed and will be followed out by President, the Secretary of the Navy and practically the whole membership of the President's Cabinet. The arrangement will not only advertise to the entire world the excellence and the advantages of the harbor of Hampton Roads, but it will result in great financial advantage to a great part of the southern Virginia.

The nine countries which already have signified their intention to send battleships to take part in the cruise from Hampton Roads to San Francisco are Argentine, Cuba, France, Germany, Great Britain, Italy, Japan, Portugal, and Russia. The squadrons of these countries and of the other powers which will also be represented in the greatest naval review of modern times will be assembling in Hampton Roads from December 1914, until March 1915.

Naturally, this will result in a tremendous advetising boom for Hampton Roads and Virginia, and, incidentally, the presence of the officers and men in the harbor will be a great aid to the business interests of the cities of Virginia.

In 1910, when public interest first began to manifest itself in the completion of the canal, Senator Swanson became convinced that Hampton Roads should be selected as the logical starting point for the trip to the canal. After consultation with the Navy Department, he was persuaded more than ever that this harbor should be the mecca for the fleets of the world. Thereupon, he introduced his resolution in the Senate, and his efforts to have the plan adopted have been unremitting.

The formal announcement of the Secretary of the Navy that the President will review the fleets of the world in Hampton Roads in sight of the Virginia shores marks the successful end of the Senator's work in this connection.

Mrs. C. C. Merritt, 60, Mrs. R. M. Beardslee, 45, and June Beardslee, 20, were instantly killed at Hale's Crossing, near Greenville, Mich., yesterday, when the automobile in which they were riding was struck by a Pere Marquette passenger train. Mrs G. C. Lake, daughter of Mrs. Merritt, who was driving the car, is unconscious and may die. The machine became stalled on the crossing.

PLAY GROUNDS.

Committee Decides to Open Same July 1st.

At a meeting in the Chamber of Commerce last night of the Playground Committee, an auxiliary of the Parents'-Teachers' Association, it was decided to open the grounds July 1st in charge of a competent directress, who has inaugurated several playgrounds in Washington and elsewhere. Her assistants will be several young ladies of this city, who will serve as her understudies in order to learn the system.

The playground, as has been announced before in the Gazette, will be the ground surrounding the George Washington School, at the corner of Washington and Wolfe streets. Some have already contributed to the fund for this necessary work, a playground for our children during the summer months. A list of the patrons and patroneses will be published in the Gazette later.

Anyone wishing to help this good cause can send their contributions direct to the treasurer, Mr. Taylor Burke, of Burke and Herbert, or to any of the Playground Committee.

Thanks are expressed to the City School Board for granting the use of the grounds at the Washington School.

LOSES FOOT IN BINDER

Richard Talley, Louisa County Farmer, Jumps in Front of Blade When Teams Runs Away.

Richmond, June 24.—Richard Talley, a prominent farmer of Louisa County, is now in the Memorial Hospital in a serious condition having lost one foot and sustained other injuries when he fell in front of a binding machine. The blade caught him just above the ankles, almost severing one leg and terribly lacerating the other. He was badly cut about the body.

Mr. Talley was cutting his crops on his farm near Frederick's Hall, when the lead mules of the four-mule team, ran away. To save himself, Mr. Talley leaped from the saddle, falling in the path of the sweeping blade.

Several doctors were called in, but on account of his condition the foot was amputated at once. He was then rushed to Richmond. At the hospital his condition is reported as serious, but he will recover.

KILLED DIVING.

Henry Koch, of Richmond, Victim of James River Accident.

Richmond, June 24.—Henry Koch, of 413 North Twenty-second street, was fatally injured while diving in the river at the foot of Twelfth street, Monday afternoon about 6:30 o'clock. He died while still in the water.

Koch, a young married man of 31 years, was in the habit of taking a dip in the river when his day's work as bookkeeper for tthe local Anheuser Busch bottling plant was completed. According to his habit, Koch yesterday dived from tthe bank into the river. As he came up he was seen by two small boys, John Pugh and Wm. Cook, who realized that the man was in distress and gamely wentt to his rescue. Koch had struck his head on a rock ledge. He died almost instantly.

The boys hung pluckily to the man and on reaching the bank all three of them were pulledout of the water by men who had seen the incdentt and who had come to the rescue. Efforts tot revive Koch were fuile.

INQUEST TONIGHT.

The inquest which was to have been held last night for the purpose of ascertaining the facts in connection with the death of F. J. Scheickert, who was crushed to death on the Washington and Old Dominion Railroad on the 19th instant was postponed until this evening at 7 o'clock. The inquest will be held at W. Demaine & Son's undertaking establishment.

EDITORS VISIT MOUNT VERNON

Virginia Newspaper Men Guests Today of Ladies' Association.

PUT WREATH ON TOMB

Will Return to Alexandria at 4:30 o'Clock This Afternoon and Visit Historical Places.

The Virginia editors visited Mount Vernon today as the guests of the Ladies' Mount Vernon Association and placed a wreath on the tomb of George Washington. A special train over the Washington-Virginia Railway conveyed the newspaper men and their families to the home of the first President. Before entering the grounds luncheon was served at the Ellis Cafe.

At 4:30 o'clock this afternoon the return trip to Alexandria will be made where a sightseeing tour will be on the program. At the Masonic Temple the relics of Washington and Lafayette will be described by George Zachary, tiler. At Christ Church at 5:00 o'clock the Rev. William J. Morton, rector, will deliver a brief address in which he will explain the connection of Lee and Washington with the church as vestrymen. A visit will also be made to the Carlyle House.

The annual banquet of the association will be held tonight at 8 o'clock in the Elks' Auditorium. In addition to the members of the association a number of guests have been invited. Vice President Thomas R. Marshall wil make the principal address. Mr. Marshall will come to Alexandria in the private car "Mount Vernon" and the following committee has been named to escort him to this city; Mayor Thomas A. Fisher; Judge Louis C. Barley; F. F. Marbury, president of the Board of Aldermen; R. D. Brumback, president of Common Council, F. H. Treat, president and J. W. Rich, superintendent of the Washington-Virginia Railway, and Robert S. Barrett, editor of the Gazette.

The association had a business session this morning at which time a number of matters of interest to the association were considered.

The following committees named by President Cooke made reports: Finance—A. R. Anderson, Marion; W. C. Louck, Luray; J. S. Johnson, Clarksville; resolutions—Robert S. Barrett, Alexandria; C. J. Campbell, Amherst; George O. Greene, Clifton Forge; nominations—A. P. Rowe, Fredericksburg; W. McDonald Lee, Irvington; A. J. Wedderburn, Alexandria; R. S. Chamberlayne, Phoenix; L. E. Lookabill, Roanoke. Membership—M. Botts Lewis, Clifton Forge; M. T. Harrison, Bedford City and E. G. Moseley, Danville.

An invitation was extended by the city council, newspapers and commercial bodies of Harrisonbug, for the association to hold its next meeting in that city.

President Commutes Sentences.

Washington, June 24.—President Wilson today commuted to expire at once the sentences imposed on Michael J. H. Hannon of Scranton, Pa.; Frank H. Painter, of Omaha, Neb.; Fred J. Mooney, of Duluth, Minn., and William Shupe, of Chicago, all convicted in the "dynamite conspiracy" cases.

The twenty other defendants, including the leaders, must begin serving their sentences tomorrow in Leavenworth penitentiary. Clemency for John H. Barry and Paul J. Morrin, both of St. Louis, was withheld, while they have opportunity to submit separate petitions.

Hannon had been sentenced to 3 years. Painter to two, Mooney and Shupe each got a year and a day. Barry got four years and Morrin three.

Boy Puts Bullet in Brain.

Philadelphia, June 24.—When a revolver which he and a small companion had found was accidentally discharged while they were playing with it, 7-year-old Frank Nagle, of No. 542 North Vogdes street, was shot through the head and probably fatally wounded yesterday. The bullet entered the boy's forehead above the right eye, passed through his brain and came out the back of his head. He is believed to be dying in the West Philadelphia Homeopathic Hospital.

VIOLENCE IN BUTTE.

One Man Killed and Building Dynamited Last Night.

Butte, Mont., June 24.—Violence broke out anew last night in the struggle between factions of the Butte miners' union and three men were shot, one of them being killed, by the fusilade fired by deputy sheriffs in defending Union Hall.

Insurgent miners ran to the top of a nearby building directly after they were first repulsed, and opened fire on the deputies in Miners' Hall. The officers retreated for a time to the inner rooms of the building, then sallied to a window, fired on the besiegers, and retired.

This warfare in the darkness between housetops and windows did not last long, the miners scattering to obtain dynamite.

The revolting members of the union were persistent in their endeavors to blow up union headquarters. The first charge of dynamite having failed to destroy the building, a second and a third mine were exploded, having been planted while deputies were chasing dynamiters from some other part of the structure.

The third explosion blew out the front of the building, which had been looted during the first outbreak more than a week ago.

SEVERE STORM IN SOUTH DAKOTA

High Winds, Rain, Thunder and Lightning Prevail in Pennsylvania.

FIFTY ARE INJURED

Buildings Damaged by the Elements —Fears for Boats Caught on Great Lakes.

Chicago, June 24.—Fifty persons persons were injured, some of them fatally, and many houses were wrecked by a tornado that swept through Watertown, S. D., and moved eastward through southern Minnesota and northern Wisconsin early today, according to dispatches received here.

Communication to the northwest has been interrupted, and early today St. Paul and Minneapolis were cut off from communication with the outside world.

Wires west of Madison, Wis., were tangled. Commercial wires were all down. The heaviest wind was reported at Elroy, Wis.

A wind of almost cyclonic proportions swept through Milwaukee early today, wrecking chimneys, breaking windows, uprooting a few trees and blowing down fences.

There was fear that some lake boats might have been caught off shore as thes torm came up suddenly.

Norristown, Pa., June 24.—During a terrific storm here yesterday evening lightning set fire to several houses, churches and barns. The wind ripped the roof of the Ebenezer Methodist Church at Arch and Basin streets, and Grace Lutheran Church at Haws avenue was damaged by lightning. Other buildings were similarly damaged.

READY TO REFUTE CLAIM

Said that West Virginia Knew of So-Called Assets.

Richmond, Va., June 24.—The claims advanced by West Virginia, in petitioning the Supreme Court of the United States for a reopening of the debt suit case of Virginia on the grounds of having discovered new evidence of assets, consisting of bonds bought wth the money which Virginia borrowed before the separation of West Virginia, will be answered by the Virginia commission with evidence that West Virginia knew of these so-called assets at the time the suit was brought by Virginia for part of the amount. That they did not introduce this evidence at the time and that there is really no evidence in substantiation of the claims advanced by West Virginia will probably be shown by the Virginia commission.

Arthur G. Poter, connected with Park, Potter & Company, of 149 Broadway, New York, a large certified public accountant firm, is at work in the office of Second Auditor Rosewell Page, collecting figures and evidence which will be introduced by the Virginia commission. The fact that the assets of Virginia, which West Virginia claims should have been deducted from the amount allowed Virginia by the United States Supreme Court were open for public inspection at any time and could have been examined by the West Virginia commission at any time that it saw fit is not regarded as newly discovered evidence by the Virginia commission.

This fact will be brought out by the attorneys for this state when the case is brought before that court.

FISH [illegible] PROPERTY

Will be Leased to W. A. Smoot & Co. at Annual Rental of $300

As will be seen by the official proceedings of the City Council, the Fish Wharf property is to be disposed of in a manner which will, it is believed, prove satisfactory. W. A. Smoot & Company will lease the wharf at an annual rental of $300, it being stipulated that the city will be allowed certain space during fishing season and for other uses when required.

The committee on finance and public property made a report to the City Council last night recommending the pursuance of this course.

The city will hereafter be under no expense in keeping up the property, the lesses guaranteeing to make repairs as they shall be needed.

It was stated in the Board of Aldermen, which board the report of the joint committee was submitted, that no fish were landed on the wharf this spring, and from present indications it is not likely that the city will in future receive any revenue from this source.

The Aldermen adopted the report by a unanimous vote, and the Common Council, concurred in their action.

The city in making this disposition of the Fish Wharf has unloaded a white elephant, as for many years the expense incident to keeping up the property exceeded the yearly rental.

This action of Council, however, does not eliminate the fish market, as space will be reserved for the accommodation of fishermen if the same be needed.

MORE IMPROVEMENTS.

Lee Street From King to Have Modern Paving.

As will be seen by the official proceedings of the City Council ordinances have been introduced providing for paving Lee street from King to Queen with vitrified brick and the laying of modern sidewalks upon those two squares. The ordinances were referred to the committee on finance and streets.

When this work shall have been executed, Lee street will have four squares of modern roadway, extending from Duke to Queen street.

ACCUSED DISMISSED.

Porter, After Serving Ninety Days on Roads, Re-Arrested by Deputy Marshal.

Several months ago Samuel Mills, colored, a porter on the Southern Railway, was arrested by the authorities of Manassas on the charge of selling liquor in a dry territory. It seemed that Mills was given a dollar by a resident of Prince William county with which to purchase liquor for him. This was construed as a violation of the Byrd law, and Mills was given a ninety-day term upon the public roads. After having served his sentence, he was arrested at Marshall, Fauquier county, yesterday by Deputy United States Marshal Schoeni and brought before Commissioner Garnett in this city this morning. The commissioner, after a careful examination of the charge against the prisoner, concluded that his act was not a violation of section 3242 of the revised statutes of the United States, and dismissed the accused.

DISPATCH'S BIG STORY

Richmond Newspaper Gives Alexandria Big Boost on Convention.

The Richmond Times-Dispatch, gave Alexandria a splendid boost in its issue of yesterday in describing the arrangements for the convention of the Virginia Press Association. On the front page was a large cartoon in which Alexandria was represented as a chef preparing to serve dinner to the various editors surrounding the banquet board. Among the good things prepared for the newspaper men were such succulent dishes as "purity in politics," "tax reform," "swamp reclamation" more school houses," "clean journalism," "progress," "playgrounds," "modern farming" and "better roads."

The article is illustrated with pictures of George B. Cooke, president of the association; George O. Greene, vice-president; J. L. Hart, secretary; E. G. Mosley, chaplain, Miss Bertha Gray Robinson, historian, Congressman Charles C. Carlin; Robert S. Barrett, editor of the Gazette; and views of Alexandria and Mount Vernon.

The article was written by J. C. Latimer, who is a interested visitor at the meeting of the association. Among other things Mr. Latimer said:

"Progress" is the watchword of the citizens of Alexandria, which now has a population of 20,000, exclusive of beautiful suburbs, the residents of which add much to the social and commercial life of this city and of Washington.

Situated on the south bank of the Potomac, the city of Alexandria is a natural gateway between the North and the South. Here six steamship lines connect with all coasts, including European and South American lines, and the city's half-mile of water front, with a harbor for the largest vessels, together with six trunk line railways, give the city excellent transportation and shipping facilities.

Old landmarks and historic buildings and sites have been preserved, and their traditions are cherished, but the enterprising citizenship of Alexandria has looked toward the future, and to that end a strong Chamber of Commerce has flourished for years, which, together with other civic bodies, has done a great work in letting the world know of the natural advantages and resources of this city, which has resulted in the building up of a strong manufacturing and commercial city, and a city whose social life is ideal.

Improved streets, the replacing of cobblestones with smooth paving, extension of sewerage system, modern banks and banking systems, splendid public school facilities, an abundant water supply, churches of various denominations, constantly growing in membership and increasing in spiritual influence, and fraternal organizations have all had their part in making Alexandria today a city of prosperous businesses, happy homes, congenial society and surrounded by the most hallowed of historical memories.

YOU'LL CROW OVER 'GETS-IT" FOR CORNS. !

It Will Startle You How "GETS-IT" Gets Corns Every Time.

"One, two, three!" That's about as long as it takes you to apply "GETS-IT" the new-plan, simplest, surest corn cure the world has ever seen.

"This Is No Place For a Crow. Her Corns Are All Gone. She Must Have Used 'GETS-IT.'"

Corn fussing is all over. Corns corn pains and calluses are absolutely done for, from the minute you apply "GETS-IT". Forget the bother of useless plasters, greasy salves that spread and make toes sore and raw, little doughnut cotton rings that press on corns, forget knives, razors, scissors, and the dangers of blood poison from drawing blood and the contraptions and harness that simply make corns worse. "GETS-IT" never hurts the flesh, never fails.

"GETS-IT" is sold by all druggists, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

RUSHES OUT OF JAIL.

Robber Leaves Wife and Girl In Locked Cell.

Winchester, Va., June 24.—G. James Tyler, alias John Pierce, alias Joe Wallenstein, of Washington, awaiting trial here on the charge of robbing Hable's clothing store and ticket office several weeks ago, broke jail at 10 o'clock yesterday morning. Tyler's wife was visiting him in the jail and had offered to do some service for a girl employed at the institution.

She was in the cell with her husband, and when the girl passed a pan into the cell, Tyler grabbed the girl, knocked her down and dashed through the door. He left his wife and the girl locked in the cell and it was nearly an hour afterward that another called at the jail and heard the cries of the imprisoned females, and they were released.

Mrs. Tyler was later arrested and locked up, charged with assisting her husband to escape.

NORFOLK LOSES LAST CHANCE.

Will Not Get Navy Yard City Had Been Seeking.

Washington, June 24.—Norfolk's last chance at this session of Congress to get the proposed great navy yard failed yesterday when the House voted down for the second time an allowance of $200,000 in old Texas, afterward the San Marcos.

The yard, according to estimates of the Navy Department, will cost $3,000,000. The Virginia delegation in the House endeavored to have appropriated $200,000 for initial work. This failed. Then Senator Swanson had inserted an amendment to the Naval Appropriation bill for the $200,000 and succeeded in lining up that branch of Congress behind it.

When conferees were named to consider the differences between the Senate and the House as to the general bill the Senate conferees stood firmly for the Swanson amendment, but the House members opposed it. Today's vote was in support of the stand taken by the House conferees.

BIG FUND FOR V. M. I.

Alumni Undertake to Raise a Million Dollars.

Lexington, Va., June 24.—The Building and Endowment Association of the Virginia Military Institute was organized yesterday by the Alumni Association of the Institute, whose purpose is to raise one million dollars for the enlargement of the West Point of the South. A committee with John B. Purcell, of Richmond, as president, was appointed to put into working order the organization.

A salute of seventeen guns was fired yesterday afternoon by the cadet battery in honor of the visit of Governor Stuart. Appropriate ceremonies will be held today in honor of the sevnty-fifth anniversary of the founding of the V. M. I.

DROUGHT BROKEN.

Copious Rains Fall in Shenandoah Valley Following Prayers.

Harrisonburg, Va., June 24.—Four heavy rains have visited this section since Sunday, breaking the 47 days' drought. More rain fell in 20 minutes Monday night than had fallen altogether since May 4.

A hail and wind storm swept the county Sunday night. The largest hailstones ever seen in Harrisonburg fell. In Bridgewater trees were blown down and other damage is reported. The rains followed the prayers of the Rev. Frazier Furr, of the Methodist Church, Sunday.

New Mayor of Lynchburg.

Lynchburg, Va., June 24.—In the most exciting election held here for many years and with 2,401 votes cast, the largest vote in any election under the new constitution, Royston Jester, a young lawyer, was yesterday elected to fill the two-year unexpired term of the late Mayor G. W. Smith by a plurality of 174 votes over F. W. Whitaker acting mayor. There were three other candidates, one a Socialist, Adon A. Yoder, who received 63 votes, whilst Jester's total vote was 974, he securing a large proportion of the dry vote of the city.

MUST BELIEVE IT.

Well-Known Alexandria People Tell It So Plainly.

When public endorsement is made by a representative citizen of Alexandria the proof is positive. You must believe it. Read this testimony. Every sufferer of kidney, backache, every man, woman or child with kidney trouble will do well to read the following:

Mrs. Maud M. Simpson, 211 Wilkes street, Alexandria, Va., says. "I have recommended Doan's Kidney Pills to my acquaintances during the past two years and do not hesitate to recommend them publicly. I began using them when suffering with pains in my hips and across my back as the result of disordered kidneys. I can say to any sufferer that Doan's kidney Pills give relief. I have also given this remedy to my children for kidney weakness and I find it is good for that trouble. No praise is too strong for Doan's Kidney Pills."

BEE STINGS FOR INEBRIATES.

The Richmond Virginian, prohibitionist organ of the state, inclines to the belief that bee stings will destroy the appetite for stimulants and that they are also a panacea for that universal scourge, rheumatism. In this connection the Virginian prints the following from London Tid Bits:

"It is affirmed by physicians that inebriety as well as rheumatism may be cured by bee sting. This discovery was made quite by accident in a London hospital. Five men were being treated for chronic rheumatism. Four of them had been hard drinkers for years, and one was a confirmed drunkard.

"Bee stings were applied to them, and the rheumatic condition promptly subsided. When they were finally discharged they found that the treatment had done more than cure the rheumatism—it had destroyed their taste for alcohol. Even the sight of drink nauseated them, and since leaving the hospital several months ago not one of them has touched liquor.

"The hospital physicians, who were as greatly astonished at this unexpected result as their patients, have set on foot a widespread investigation into the effects of bee stings on drunkards to see whether they are infallible cure for inebriety.

"Facts already brought to light show that an intoxicated person is quickly sobered by a bee sting, and that drinking men who take up work among bees, where they are frequently stung, soon lose their old craving for alcohol."

The Virginian thinks this alleged remedy should be given a thorough investigation by the medical fraternity. We think so, too, and if what is claimed for its proves satisfactory, instead of convulsing the state with a prohibition movement, that all the unfortunates in the Old Dominion be taken in custody and subjected to assaults from the little insects. It is a cheap remedy and beats all the Keily cures and powders women have been slipping slyly into the coffee of dipsomaniac husbands.

INDIAN HOSPITALITY.

A Brand of Their Own, Not "Stingy Like the White Man."

The early experiences of the white practitioner among reservation Indians make a chapter of encounters with aboriginal prejudice not wholly finished. Even his own life was not safe if the doctor ventured too near the borderland of prejudice, and if a death occurred at the beginning of his practice he was likely to be avoided for the rest of his sojourn. Many an Indian came for the first dose and was never seen or heard of afterward—whether death or distaste was the result of his visit the doctor might never know. Or an entire bottle of cough sirup would be consumed at once, on the theory that if a teaspoonful was good a bottleful would be better.

The constant hospitality practiced by Indians, and the custom of sharing the last crumb, is a phase of the food question difficult to be appreciated by whites. As long as an Indian has any subsistence, his neighbors and friends come a-visiting, to remain as long as the food holds out. To be inhospitable or "stingy like the white man" is an opprobrium which only the hardiest Indian can socially survive. This Indian virtue bars the way to an equalization of any distribution of food, and is the cause of many of those cases of "Indians starving."—Southern Workman.

DIED FOR HIS IDOL.

Heroism That Led to Napoleon's Title of "The Little Corporal."

It is related that Napoleon was once badly defeated at Coblentz by the Cossacks. After the battle he was surrounded by enemies and would have lost his life had he not been saved by the presence of mind of one of his soldiers, Corporal Spohn.

Realizing that Napoleon's only chance for life was in getting off the battle field unrecognized, the corporal begged the emperor to change hats and horses with him. The change was made ere the smoke of battle had cleared away, and Napoleon, with his corporal's hat and mounted on a poor steed, rode away unnoticed, the Cossacks crowding around the corporal. Taking him prisoner, they led him in triumph to the Russian general. There the mistake was soon discovered, and the corporal's brave act cost him his life.

According to the Coblentz legend, Napoleon, in remembrance of Spohn's self sacrifice, always after this preferred a corporal's uniform to any other and wore it so often that his men came to speak of him familiarly as "Le Petit Caporal."—From "The Rhine," Translated by G. C. T. Bartley.

Mastery of Music.

The mastery of music never just "came naturally" to any human being. The world has never known a more industrious worker than the illustrious Franz Schubert. Yet, if to any one in the world music "came naturally," it seemed to come so to him. When the school principal asked his harmony teacher how young Franz Schubert was progressing, the teacher said: "He is a wonder. Whenever I explain anything new to him, he always seems already to know it. He must have received his knowledge straight from heaven." Yet, in spite of such superb gifts, there was never a harder worker than he. And don't you think that we with our lesser gifts, should follow his example? If he with all his heaven sent genius could not succeed without strenuous daily labor, how can we hope to accomplish anything worth while without ceaseless, patient and conscientious toil?—Woman's World.

Your Castle of Thought.

Your Castle of Thought is the most sacred possession you have.

It is your real estate, your house of prayer.

You are the agent. Shall you let in disorderly tenants?

Shall you harbor Doubt, a sickly tenant, to infect well meaning tenants? Doubt is about the worst tenant you can admit. Turn him out.

Doubting some one, any one, never gets you anything.

If the one you doubt is unworthy, then that is his problem, not yours. Give him this to read and let him come and take treatment.

Come and get your thought changed, and all things will be made new.—New York Sun.

By the Rules of the Game.

Little Mary Lou was eager to get back to her new doll and didn't know there was going to be any dessert. She slipped quietly from her chair, hoping she would not be observed.

Out in the hall she met the cook with the ice cream, and as quietly as she had left it she slipped back to her accustomed place at the table.

"Mary Lou," said her mother reprovingly, "I thought you had finished your dinner. It isn't polite to come back."

"But I didn't excuse myself, mother," the little girl said quickly.—New York Post.

Why They Worshiped Cats.

W. J. Showalter explains in the National Geographic Magazine why the ancient Egyptians worshiped cats. They noticed that where there were cats there was no bubonic plague. They did not know, of course, that it was the fleas on rats that spread the disease.

FLESH-FORMING FOOD

When you buy a package of Samose, the great flesh forming food, weigh yourself and see how much you gain in the first week's use. E. S. Leadbeater and Sons will tell of many of their customers who a month or so ago were thin pale and haggard but who are now, through the use of Samose, plump, strong and happy, with perfect health and attractive flesh. They have seen so many instances of the wonderful power of Samose to restore the weak and sick to strength and health, and to make good natural flesh that they give their personal guarantee with every package of Samose they sell to refund the money if it does not prove satisfastory.

Samose is a pure preparation, and can be used with absolute confidence by the most delicate. It gives remarkable results with children who are weak and run down and without appetite.

Post Toasties

For That Bedtime Snack

The kiddies need something that is dainty and appetizing, don't they? And you want to be sure that they have a food that is easily digested—one that will not disturb their sleep.

Post Toasties are surprisingly good at any time.

They are made of the hearts of the finest Indian corn, perfectly cooked, delicately sweetened and salted, rolled into thin, ribbony flakes and toasted to a crisp, golden brown.

They have that indescribable flavour—sweet and delicious, that so delights the taste.

Just pour from the package and add cream and sugar, or sprinkle over fresh berries or fruit.

Easy to serve and mighty good.

FOR SALE—"Faultless" Houdans; this strain has been egg-bred from Trappist records since April, 1890. I have bred them 21 years for great layers and 12 years for large-size chalk-white eggs; these fowls are extremely hardy, have neither comb or wattle to freeze, and are the best all-winter layers in open front coops. "Faultless" strain Houdans have won every blue ribbon at New York, Chicago, and Philadelphia shows for past six years, eggs and stock sold on honor; send 10 cents for the largest illustrated poultry catalogue ever issued; it tells you how to breed these fowls, which average 25 eggs a year a piece; it tells you how to net $3.000 a year from 100 hens. Don't Lose Sleep Coughing at Night.

Take Foley's Honey and Tar Compound. The very first dose surprises you. It glides down your throat and spreads a healing, soothing coating over the inflamed tickling surface. That's immediate relief. It loosens up the tightness in your chest, stops stuffy wheezy breathing, eases distressing, racking, tearing coughs, soothes the irritated, inflamed bronchial tubes and air passages. Children love it. It is mildly laxative—as a cough medicine should be, and does not upset or distress the most sensitive stomach. Refuse any substitute. Contains no opiates.

Offer to Pay For Samose if it Does Not Make Thin People Fat.

Pale, thin people are simply suffering from want of nourishment. They may eat enough, but their food is not properly digested and does them no good.

Samose, the remarkable flesh-forming food should be used by all who are pale, weak and thin. It mingles with the food and aids assimilation so that when taken for a short time Nature will soon assert her normal powers, and the food that is eaten will give strength and good flesh.

The woman who longs for rosy cheeks and the plumpness of beauty should use Samose. The man who wants to be strong and well and gain health and good flesh, will find his desires accomplished by Samose.

Such remarkable results have followed the use of Samose that druggists, E S. Leadbeater & Sons, are willing to pay for the treatment if it does not give the desired results. They make this offer generally and want all who are thin, weak out of of health to get a box of Samose from them on those terms.

FACIAL FOLIAGE.

Looking For Mother's Spectacles in Father's Whiskers.

In the American Magazine James Montgomery Flagg writes an amusing piece entitled "Whiskerculture." Following is an extract:

"It's a heartrending sight in any case, this facial landscape gardening, from the time that they innocently say at breakfast, 'You forgot to shave this morning, dear!' (It has taken three days for even the rough sketch you show them to the dreadful harvest of your noxious inspiration.)

"Picture the nervous strain on the wife and babes as they witness the gradual budding (blossoming) and fruition of the horror. How they sadly watch the head of the house slowly disappearing in a cloud of brambles.

"See those outstretched dimpled arms and hear those sobbing voices, 'Come back to us, papa!'

"Isn't your pride touched on the raw when your wife lifts up the door mat in the vestibule and kisses it good night on account of its comparative silkiness? Stop, consider, you who through some inherited mental weakness do not know the difference between right and whiskers—hesitate! Why add to the strain of family life? Even if you have provided your wife with a vacuum cleaner why multiply the cares of a busy housekeeper?

"Ask yourself if it will add in any way to the pleasure of any one in the family. When your mother has mislaid her steel rimmed spectacles does it not make one more place that has to be ransacked?

"Men who embark on a career of whiskerculture are obviously thoughtless. What man would cultivate wistaria chinensis on his chin if he visualized himself at some future breakfast having to loop up those vines with portiere cords in order to slide a poached egg in without mutilating it?"

OBJECTS ON THE MOON.

The Size They Must Be to Show In Our Different Telescopes.

The Abbe Moreux, director of the astronomical observatory of Bourges, France, answers in Cosmos the question, "What is the smallest object visible on the moon?"

First, it is necessary to know what is the smallest angular magnitude that the naked eye can perceive. Experiment, says the abbe, proves this to be thirty seconds. In other words, an object that subtends an arc of thirty seconds is first visible to the naked eye. Therefore an object having an angular diameter of one second can be seen when it is magnified thirty times. An arc of one second represents about 6,000 square feet at the center of the lunar disc. Hence, a telescope that magnifies thirty times will make visible a spot 6,000 feet in diameter on the surface of the moon.

A more powerful telescope will reveal smaller objects. One with four inches aperture and a power of 300 will show objects of 600 feet diameter. One with a power of 2,000 diameters will reveal details measuring about ninety feet.

This, however, is theory. It takes a trained and practiced eye to see fine details through a telescope. The agitation of the earth's atmosphere by winds and currents interferes terribly with the use of very high powers in telescopes. An enlargement of 400 diameters almost exceeds the practical limit. It can be used only on perfectly clear, still nights when the moon is high above the horizon. This will reveal objects 450 feet in diameter, but will not show any form or detail.

Levels of Atlantic and Pacific.

At certain stages of the tide the levels of the Atlantic and Pacific oceans at the isthmus of Panama differ materially. At Colon the difference between high and low water is not much more than twenty-three inches, while at Panama it is generally thirteen feet and at times as much as nineteen feet. The current that would be produced by this condition of things in a sea level canal would seriously interfere with navigation, but under the present arrangement of a locked canal the difficulty is obviated. The Suez canal presented no such difficulty, the difference in the level at Port Said and Suez being of a trifling nature.—New York American.

An Old Acquaintance.

A resourceful girl, having danced a pink party frock to ribbons, took what was left of it and made a wonderful lamp shade. The next evening she was entertaining a caller in the soft light and she said to him quite casually: "How do you like my new lamp shade?"

William regarded it for a moment critically, then he said: "The last time I saw that shade I danced with it."—New York Post.

Imposition.

"I don't see why lawyers should get imposed on so much," said Farmer Cornstossel.

"Imposed on!"

"Yes. Every time one gets a government office he says he is compelled to give up a lucrative practice."—Washington Star.

Cocoa Bean Currency.

When Mexico was discovered by the Spaniards, in 1519, cocoa beans were used for currency. The Spaniards found two and a half millions pounds of beans in the national treasury.

Buying Stocks.

Willis—There are two ways of buying stocks. One is to buy outright.

Gillis—Yes; the other is to buy in wrong.—Puck.

MOTORCAR PROGRESS.

Standardization of the Parts and What That Means.

Ask any engineer what feature of modern museum construction represents the greatest improvement and advancement in design, and he will say not the automatic engine starter, the six cylinder engine, but standardization.

That may be a word which means nothing to the car owner, but he is indirectly getting untold benefit from it every day that he runs his automobile. By reason of it he has only to ask for a certain kind of spark plug and he knows it will fit the cylinders; he has only a dozen or so different sizes of tires from which to select the one adapted to his car, and even the carburetor may be replaced by one of a different make without any change whatsoever in the bolt holes or attaching flange.

A vital part of the motor or running gear may be replaced by a blacksmith or local machine shop from the ordinary sizes of stock carried on hand, and the screw thread sizes as now used conform to a certain standard that renders replacements exceedingly simple. Grease cups, nuts or bolts that may have been lost may be replaced at the nearest supply store or garage, for no longer does each manufacturer work only to his own specifications on these minor parts.—H. W. Slauson, M. E., in Leslie's.

LOST HIS BAROMETER.

Count Zeppelin Says General Butterfield Sneaked It Away.

Count Zeppelin, the inventor of the dirigible balloon, is not a stranger to the United States, for he saw service with the Union army in the war between the states. In his recently published reminiscences he tells this amusing story of General Butterfield, who was chief of staff in the Army of the Potomac:

In planning operations General Butterfield attached special significance to knowledge of the probable weather conditions, and for this reason he became especially fond of an excellent aneroid barometer that I had obtained from London and paid a lot of money for.

He saw this instrument in my tent, borrowed it from me, then found it impossible to give it up. He kept it a longer time each time he borrowed it until at last he failed to return it at all. When I was about to leave the army I asked him again and again to return it, and I finally became so pressing that he said he would go to his tent and fetch it out.

After waiting outside a long time I followed him into the tent. It was empty. With my barometer in his hand he had crawled under the canvas and disappeared.

Building to Please Everybody.

"Have you started to build your house yet?"

"No. We haven't quite decided what we want."

"You haven't? I thought you had that all planned out months ago."

"So we did, but Aunt Jane didn't like the living room, so we changed that to suit her, and Uncle Bill thought the porch ought to be different, and we changed that. Then Cousin Kate insisted that we'd never be satisfied without a music room, so we had to rearrange it to put that in, and my folks thought we ought to have a butler's pantry, and her folks were sure we couldn't get along without a room in the attic, and we're waiting now to learn what color an uncle in Honolulu thinks the roof ought to be."—Detroit Free Press.

Reading That Sticks.

An old lady, says the editor of the Ladies' Home Journal, was discussing the differences between the old and the new. "We hadn't anything but the reading book to read when I was a girl," she said, "but I know the best parts of that so I can say them to myself now I'm sitting here in the dark, and my grandchildren don't know what they read last week! It soaked into me and it drips off of them." The editor concludes: "Not what drips off, but that which soaks in is of real importance, stays with the reader and affects and develops character."

Of Course He Swooned.

While the judge was giving his charge to the jury in the burglary case one of the jurymen fainted. His lordship had just impressively said:

"Gentlemen of the jury, in arriving at the verdict you must take the testimony of the witnesses for the defense into consideration and give them full weight."

At the words "and give them full weight" the juryman swooned away. He was a coal merchant.—London Mail.

On the Trail.

"Do you see that man going along with his head in the air, sniffing with his nose?"

"Yes. I know him."

"I suppose he believes in taking in the good, pure ozone?"

"No. He's hunting for a motor garage, I believe."—Kansas City Star.

NEWS OF THE DAY.

Attempts by German interests to outbid the United States for rights to construct an interoceanic canal across Nicaragua were revealed yesterday to the Senate foreign relations committee by Nicaragua Minister Chamorro. The Minister said Germans had urged that the $3,000,000 offered by the United States for canal rights and other concessions was not enough. Senor Chamorro's statement was received with surprise, and led to much speculation among members of the committee after he left the capitol.

Bert Brunstrup, of East Norwalk, Conn., was wielding a paint brush Monday as he has done for the past when a telegram was handed him which informed him that his uncle had died in Germany, and that he was the chief heir to an estate of $17,000,0000. "Whee!" exclaimed Brunstrup, and he threw his paint and brush into a duck pond. "Guess I can live without working on that," he added.

The Rev. Everard Digby, vicar of St. Agatha's Protestant Episcopal Church in Schoreditch a part of the East End of London, has arranged to act as master of ceremonies at the big boxing match in Olympia next Tuesday, when Colin Bell will fight Bambardier Wells for the heavyweight championship of the British empire.

Sale of American battleships Idaho and Mississippi to Greece was approved yesterday by the House, which accepted, by a vote of 174 to 87, a Senate amendment to the naval appropriation bill to authorize the transaction and the building of a dreadnought with the proceeds. Formal protest from Turkey has not altered the plans of the administration, and the two warships probably will be in the hands of agents of the Greek government within a week.

C. F. Niles, the aviator, startled even blaze New York yesterday afternoon by looping the loop over the skyscrapers of the city, and then shooting out over New York Bay and performing some fancy diving stunts.

William K. Ellis, Washington real estate broker, who was mysteriously shot in the head with a revolver while alone in the garage at the rear of his residence, 1620 Rhode Island avenue northwest, on th emorning of June 7, died last night at the Emergency Hospital.

Mrs. Katherine Lombardo, wife of a prosperous New York merchant, was found in her home strangled to death yesterday. The place had been rifled and the poice maintain the theory that the woman who was 68 years old, surprised burglars in the act of robbing the apartment and was killed

Following an hour's barricade against her husband, Edgar McCauley, whom she feared, Mrs. Mary O. McCauley of West Arlington, near Baltimore, yesterday shot and killed him after he forced open the kitchen door.

Striking employes of the Wastinghouse interests at East Pittsburg and Turtle Creek, have agreed to accept Patrick Gilsea and Charles W. Mills, representing the Federal Department of Labor, as mediators o fthe differences existing between them and their employers.

"The sub-committee regrets its inability to either recommend a complete acquittal of Judge Speer of all culpability so far as these charges are concerned on the one hand, or an impeachment, on the other hand." This was the conclusion submitted to the House Judiciary Committee yesterday by the special committees that for months has been investigating charges of official misconduct filed against Emory Speer, of Macon, Federal judge for the Southern District of Georgia. The report after an exhaustive resume of evidence, with several comments, held that some of Judge Speer's official actions "tend to approach a condition that of tyranny and oppression," but recommends that no further proceedings be had by the House.

HELPLESS AS BABY

Down in Mind Unable to Work, and What Helped Her.

Summit Point, W. Va.—Mrs. Anna Belle Emey, of this place, says: "I suffered for 15 years with an awful pain in my right side, caused from womanly trouble, and doctored lots for it, but without success. I suffered so very much that I became down in mind, and as helpless as a baby. I was in the worst kind of shape. Was unable to do any work.

I began taking Cardui, the woman's tonic, and got relief from the very first dose. By the time I had taken 12 bottles, my health was completely restored. I am now 48 years years old, but feel as good as I did when only 16.

Cardui certainly saved me from losing my mind, and I feel it my duty to speak in its favor. I wish I had some power over poor, suffering women, and could make them know the good it would do them."

If you suffer from any of the ailments peculiar to women, it will certainly be worth your while to give Cardui a trial. It has been helping weak women for more than 50 years, and will help you, too.

Try Cardui. Your druggist sells it.

TO THE OWNERS OF DOGS.

The law of the city makes it the duty of the Mayor to give public notice to persons owning or harboring dogs to come forward and take out license for the same from the City Auditor or be reported and fined upon failure to do so.

The license law requires this tax to be paid before July 1, 1914. The law also requires that the tag shall be worn on the collar of the dog. This is a requirement that can and must be complied with. The policemen are expected and are directed to report to the police court the owners of all unlicensed dogs. The license on each dog regardless of sex is ($1.50) One dollar and fifty cents.

Had Lung Trouble and Expected to Die

With the civilized world anxiously seeking a specific for Lung Trouble, the number of recoveries brought about through the use of Eckman's Alterative, a medicine for Throat and Lung Troubles, is attracting universal attention. For fifteen years Eckman's Alterative has been used and the reports of recoveries in many supposed hopeless cases indicate that this medicine is doing a vast amount of good. Read this:—

33 B St., Keyser, W. Va.

"Gentlemen: I was taken sick in November, 1908, with a very bad cold and dizzy spells. The doctor then pronounced my case as Malaria Fever. I grew steadily worse. Had two consultations held over me, and the verdict was that the fever had affected my lungs and that my case was hopeless; only gave me two months to live. My physician had tried most all kinds of treatment and none did me any good, so he asked my husband if he objected to him trying a proprietary medicine. So I began on your Alterative. I was in bed from November 20, 1908, until February 28, 1909, and was thought dying several times. Today I am healthier and stronger than ever."

(Signed) MRS. EMMA K. BRILEY.

(Abbreviated; more on request.)

Eckman's Alterative has been proven by many years' test to be most efficacious for severe Throat and Lung Affections, Bronchitis, Bronchial Asthma, Stubborn Colds and in upbuilding the system. Contains no narcotics, poisons or habit-forming drugs. Ask for booklet telling of recoveries, and write to Eckman Laboratory, Philadelphia, Pa., for evidence. For sale by all leading druggists
